

Capacity Building Day

21 January 2013

Basel, Switzerland

Register now!

The Sustainable Infrastructure Financing Forum and Summit

Lead the way into the Future

Learn how to make
Infrastructure Projects Sustainable

www.globalenergybasel.com

Are you a global organisation in need of a grading tool for sustainable infrastructure?

Are you a project owner and want to improve your infrastructure project?

Are you a city official in need of tools to help you select a sustainable project?

We have the solution!

Benefits of attending the Capacity Building Day:

Deep understanding of sustainability

Better risk mitigation for your project

Tool to guide the process of selecting sustainable infrastructure projects

Better understanding of investors' needs

Participants will be introduced to the following topics:

The GEB Grading Tool and its ten themes of sustainable infrastructure

The concept of sustainable infrastructure and important principles and qualities

Self assessment of a project

Additionally, we are honored to have guest speakers, from CSCP (Collaborating Centre on Sustainable Consumption and Production) to talk on the topic of „How does sustainable consumption and lifestyles trigger investment?“

Significant support has been provided to date to an estimated 150 senior executives and experts who have participated in the GEB Capacity Building series since its first event in January 2012 in China.
